

Open:  
Monday–Wednesday, 8 a.m. to 4 p.m.  
Thursday, 10 a.m. to 6 p.m.  
Friday, 9 a.m. to 1 p.m.  
2nd Saturday (April through November), 9 a.m. to 1 p.m.

Dear Parent:

What can be tossed into a recycling bin, made into something new, and end up back on a store shelf in as little as 60 days? A pop can! To help kids understand how recycling works, I visited their classroom today and they became detectives, discovering what our recyclables can become. As they investigated, they learned how recycling “closes the loop” — keeping renewable resources in use instead of putting them in landfills!

We want everyone in Kosciusko County to know that when they throw things “away” they have choices. And those choices matter! That’s why we set up the nine recycling drop-off stations around the county. We want you to be able to recycle easily and close to home!

Did you also know that we take TVs? Plus, we accept paint, household chemicals, light bulbs, motor oil, and a whole lot more! Just bring your items to the KC Recycling Depot at 220 S. Union Street in Warsaw. Learn about all of our programs at [www.kcrecycling.com](http://www.kcrecycling.com).

Kids aren’t the only ones who enjoy our programs. We offer tours, workshops, and fun presentations for adult groups, too. Would you like to learn about composting or green shopping? Maybe you would like to play a game of Household Hazardous Waste Bingo or Environmental Jeopardy. Contact me for a list of programs.

Sincerely,

Sarah Baier

*One coupon per household.  
Offer expires December 31, 2018.*

# This Becomes That

Match the things you can recycle with what they can become.
